## [Electronic Communications Systems Dungan Frank](#)

### **Electronic Communications Systems Dungan Frank**

This book is a fairly broad review (but with only modest depth) of various electronic communications systems. It covers the classics: AM, FM, NTSCS TV, POTs, modems, satellite, optics, etc., and was probably fairly current in the mid 90s. The problem is that much new technology has been deployed in the last 10 to 15 years. Some background in electronics is necessary, and given that background, this book provides a nice overview than can fill in various knowledge gaps. So, as a ...

Electronic communications are defined in the ECPA as data communications carried over both wire and wireless systems. Electronic communications differ from wire communications in that they are communications that are not transmitted by sound waves and cannot be characterized as containing a human voice. Instead, they include telegraph, telex communications, electronic mail, nonvoice digitized ...

### **Electronic Communication - an overview | ScienceDirect Topics**

Electronic Communication Systems. Electronic communications use the properties of electricity, and electromagnetism to send information from one point to another. It is a wide field of study because of the different kinds of signals used for sending the information, the different media (systems) the information is sent through, and because of ...
