Elements Of Algebraic Topology | Taylor & Francis Group

If one thinks of the universal coefficient theorem as expressing a kind of algebraic duality between cohomology and homology, then Poincare duality can be thought of as basically geometric in nature. This duality does not hold for an arbitrary space, but depends specifically on properties possessed by manifolds. There is a certain amount of interplay between these geometric and algebraic types ...

Elements Of Algebraic Topology: Munkres, James R: Amazon.nl

Algebraic topology is a tough subject to teach, and this book does a very good job. Some prerequisites, however, are essential: * point set topology (e.g. in Munkres' Topology) * Abstract algebra * Mathematical maturity to be willing to follow a definition and argument even when it seems like a weird side-track
