

Grade 4

**Daily Reading Comprehension** GRADE 4

Correlated to State Standards

- 150 fiction and nonfiction passages
- 30 weekly units include:
  - teacher lesson plan
  - 5 reproducible student pages
- Direct instruction of reading strategies & skills
- Perfect for test prep
- Supports any reading program

**Week 14**

**Cause and Effect**  
Students practice identifying cause-and-effect relationships by looking for what happens (the effect) and why it happens (the cause).

**Fact and Opinion**  
Students determine whether details in a text can be proved (facts) or represent what someone thinks or feels (opinion).

**DAY 1**

Review the Cause and Effect skill with students. Say: An effect is something that happens. The cause is why the effect happens. Tell students they will read about a different kind of school that was created in Australia. Then remind students of the Determine Important Information strategy (Think 1). Say: As you read, look for the important information that helps you understand why the school was created and what effect it could have on students. When students have finished reading, have them complete the skill and strategy practice activities. Review the answers together.

**DAY 2**

**Read the Passage:** Notice how the author uses facts and opinions to describe hagfish. Pay attention to the causes and effects of a hagfish's physical traits.

**Sticky or Interesting?**

I've talked to a lot of fishermen and they all agree. They believe that the ugliest and strangest fish of all is the hagfish. Some call the slimy hagfish a true monster of the deep. I think hagfish are gross but in an interesting way.

For one thing, a hagfish has an unusual body. It is long and slippery like an eel, but it is not an eel at all. A hagfish has four hearts and two brains. Its eyes are covered with skin, so it is nearly blind. But it has four thick, whisker-like organs called barbels that wiggle the fingers out of its snout. These barbels and the hagfish's single nostril help the fish find food.

The hagfish's way of defending itself has resulted in its nickname, "slime eel." Large glands run along the sides of the hagfish's body. When danger is near, the glands secrete slime. And this is no ordinary goo. A hagfish's slime has fibers that make it very sticky. The fish can make a bucketful of slime in just seconds!

The fish can make a good weapon, but it can also clog the hagfish's gills. So a hagfish has to work the slime off its body. It does this by tying itself into a knot! The hagfish can do this because it has no stiff fins or bones. Its muscles push the knot down its body and squeeze off the slime.

A hagfish's eating habits are odd, too. It eats living and dead animals. Its body digests food very slowly. So a hagfish can go seven months between meals.

**SKILL PRACTICE:** Read each question. Fill in the bubble next to the correct answer.

1. A hagfish can tie its body into a knot because
  - it has four hearts.
  - it has odd eating habits.
  - its eyes are covered with skin.
  - it has no stiff fins or bones.
2. Which one states a fact about hagfish?
  - It is the strangest fish of all.
  - It has odd eating habits.
  - The fish is gross, but interesting.
