Mastering Emacs

It tightly integrates with Emacs and has a wealth of interesting features. Mastering Keybindings Binding keys in Emacs is not easy if you haven't done it before, but in this article I will walk you through all the many ways of doing it: how to bind keys to particular modes and globally and a selection of templates you can use for your own init file.

Welcome to my Mastering Emacs reading guide. Here's a selection of articles that cover a variety of topics that will make you better at Emacs. I recommend you read one article and try to absorb as much of the material as you can; don't try to cram it - pick it up naturally. Ask yourself, if you're trying to do something out of the "ordinary" if you can do it in a cleverer way by either consulting my site or using Google.

So now I'm re-reading Mastering Emacs with the goal of building everything from scratch and learning the "Emacs Way" of doing things. My entry into Emacs was via Spacemacs and evil-mode so I have many old habits to break. I guess I'll be losing those weeks after all. Updated on Thursday, Jan 10, 2019

Master Emacs in One Year English version. Guide on how to master Emacs in one year. The critical question is whether one year is enough. My answer is a big YES, if you know how to do it efficiently! Here are the tips for your first year: Set the standard to the highest; DON'T create your own setup; Report bugs to the master; DON'T learn Lisp

And yet, somehow, Mastering Emacs masterfully delivers on both areas, clearly showing itself as a labor of love, and a whole lotta sweat and hard work. The book's beautiful cover smoothly gives way to an interior that is consistently easy on the eyes and a pleasure to read. Most importantly, all of this eye-candy

Emacs has three modes for inserting symbols and diacritical marks: Unicode Code Points, Character Composition and Multilingual Text Input. NOTE: Some of the features in this article require Emacs 23+ Unicode Code Points. Because Emacs's internal display and text engine now supports Unicode you can make Emacs insert any character you like. The only caveat is that your font may not support all of them. (This is certainly true of

I'm on page 36 (emacs Client-Server) it says that there are two options, the first is using emacs start-server and the next is emacs -daemon. It mentions on the bottom of page 37 that if I go the server route I cannot use the traditional emacs binary or whatever. Does this include the emacs -daemon? Does this mean that I should use ...

Mastering Emacs is the first tech book in a long time I've read cover-to-cover, taking notes and making bookmarks as I've went. I've referred back to it many times in trying to get more helpful commands in my daily workflow. I gleaned a lot and - ironically - the biggest point Petersen makes is that Emacs is self-documenting. You can search the help with Emacs any time and it will actually ...

"Mastering Emacs" is a great reference for many Emacs features, both widely known and quite obscure. As for the book part (especially, a book for beginners) - not so much. Sometimes it gets incoherent describing different customizations, pointing at caveats that are not relevant at the novice level. All in all, it's a solid book to read when you already have plenty experience with Emacs.
