Circulatory system Interactive worksheet

The circulatory system is made up the heart, blood vessels, and blood. Circulation, or transport, is a vital function. Life cannot go on without it. Blood vessels are found in almost every part of the body. If laid end to end, your blood vessels would stretch out to about 161,000 km! (About 4 times the distance around the equator!) Look at Figure B. It shows arteries and veins within the
