Rudolf Smit - The Self Does Not Die: 104 Cases of Verified Paranormal Phenomena from NDEs

The Self Does Not Die is a trailblazing effort to present the most confirmed cases of consciousness beyond death ever compiled. In these cases, the authors have gone back to the original sources, the people involved in each case, whenever possible, rather than relying on secondhand sources. In so doing, they have assembled a unique collection of empirical data that any scholar worthy of the name must take into account.

The Self Does Not Die: 104 Cases of Verified Paranormal Phenomena from Near-Death Experiences — Rudolf Smit, 2016 IANDS Conference. Claims of paranormal phenomena/experiences during Near-Death Experiences are not just purely subjective. There are cases of NDE in which a third party (partner, relative, friend or medical professional) directly confirms these claims, rather than only through the near-death experiencers (NDErs) themselves. Skeptics have tried to debunk such strong cases but ...

The Self Does Not Die is a clear and decisive debunking of the debunkers of near-death experiences. It can be seen from the analyses of verified accounts of NDErs that Consciousness is independent of brain activity. So-called "skepticism" of these accounts is exposed as cynical and reductionistic, pseudoscientific ideology. I highly recommend this book for folks, who are still undecided about the authenticity of the near-death experience.

But *The Self Does Not Die* proved to be different from most other books of this type. It is never sensationalistic or overheated; the authors carefully consider the strengths and weaknesses of the various cases, ranking each according to how well documented and authenticated it is. The collection of professionally researched cases is the most comprehensive I've seen. Cases that don't meet the authors' strict criteria are omitted. The overall tone is serious, even a little dry, an approach I ...
